Only in summer!  
**MUSIC MAGIC LAB**  
June – July 2026 - Mobile

**Learning is fun, learning music theory is the best!**

The Mobile Symphony presents the theory of music in a step-by-step, straightforward way for anyone who wants to have fun learning the music fundamentals.

This class covers treble clef notation, time values, time signatures, sharps, flats, naturals, note spelling and much more. Learning the basics of theory will prove useful for life and for multiple instruments.

Some students pick up music by ear. Great! They can sit down and start to play what they want just by listening to the melody of their favorite song. For the rest of us, however, having a basic knowledge of the notes on the staff, the location of those notes on our instrument, is the foundation we use to read and build music.
